## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 01/08/10 has been entered.

Claims 1-14 are pending for examination.

## **EXAMINER'S AMENDMENT**

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Joseph Wrkich on 03/02/10.

The application has been amended as follows:

- a. In claim 13:
  - i. Line 7, insert before "wherein the displacing includes, " -- wherein the actuator further has an electromagnetic coil for displacing the movable

Art Unit: 2837

portion when a current flows through the electromagnetic coil, where the movable portion is displaced between the semi-operation position and the normal position by adjusting an amount of current to the electromagnetic coil --

ii. Line 9, replace "an amount of electricity" with -- the amount of current --

iii. Line 11, replace "an amount of electricity" with -- the amount of current --

iv. Line 13, replace "an electromagnetic coil" with -- the electromagnetic coil --

b. In claim 14:

v. Line 7, insert before "wherein the displacing includes," -- wherein the actuator further has an electromagnetic coil for displacing the movable portion when a current flows through the electromagnetic coil, where the movable portion is displaced between the semi-operation position and the normal position by adjusting an amount of current to the electromagnetic coil --

vi. Line 10, replace "an electromagnetic coil" with -- the electromagnetic coil --

vii. Line 13, replace "an amount of electricity" with -- the amount of current --

viii. Line 14, replace "an amount of electricity" with -- the amount of current --

ix. Line 16, replace " electricity" with -- current --

***Allowable Subject Matter***

3. Claims 1-14 are allowed.

The following is an examiner's statement of reasons for allowance: The cited prior art do not teach or suggest a device or method for maintaining the movable portion of an actuator at the semi-operation portion without causing the movable portion to move to the full actuation position. The combinations of the claimed limitations in the independent claims 1 and 3 are not anticipated or made obvious by the prior art of record in the examiner's opinion.

In addition, the examiner's statement of reasons for allowance for claims 11-14 were indicated in the previous Office Action dated 11/09/09.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
